**Tool No: 3.1.3 Model**

**SEC-TOOLBOX**

Tool Category no. 3.1 Project Feasibility Analysis

Overview	
<b>ID-number</b>	3.1.3
<b>Name</b>	PROCHP-v4
<b>Date</b>	N/A
<b>Type</b>	Model
<b>Language</b>	N/A
<b>Developer</b>	Alois Geisslhofer (E.V.A.)
<b>Contact Data</b>	<a href="http://www.kape.gov.pl/PL/Programy/Programy_UniiEuropejskiej/SAVE/aP_PROCHP/index_.html">www.kape.gov.pl/PL/Programy/Programy_UniiEuropejskiej/SAVE/aP_PROCHP/index_.html</a>

**Description**

The PROCHP calculation tool should be used to calculate the cash flow projections, the financial viability and other requirements for a "bankable CHP project". The Excel output forms and formulas themselves have been elaborated by Alois Geisslhofer (E.V.A.) with the support of all PROCHP partners within the framework of the PROCHP project.
