**Description**

The "European Conference of Municipal Energy Managers" took place 1-2 July 2004 in Stuttgart, Germany.

The core of the conference was workshop presentations with reports on successful projects in the field of municipal energy management. Plenary sessions, site visits and an 'East/West North/South' dialogue as well as an exhibition (building service systems manufacturers, energy services and networks) complemented the programme.

More information at: [www.managenergy.net/conference/ecmem04.html](http://www.managenergy.net/conference/ecmem04.html)

Many examples of Municipal Energy Management were presented at the workshop. The below titles links to <http://www.energie-cities.org/> , where more information can be obtained.

[Delft switched to 100% green electricity: a journey unveiled \(2260 kb\)](#) - Frans van Tongeren, Delft, NL

[Pamplona solar thermal ordonance - how does it work in practice? \(2550 kb\)](#) - María Teresa Martínez, Pamplona, ES

[Cogeneration and renewables in municipal buildings \(740 kb\)](#) - Hugues Geiger, Strasbourg, FR (broadcast live on the internet)

[Efficient street lighting: Integration of information technologies in Energy Management \(351 kb\)](#) - Ângelo Estrela, Vila Nova de Gaia, PT

[Facilitating energy efficient building design \(size 203 kb\)](#) - Leonid Itskovich, Christchurch, New Zealand
